## 📄 PROFESSIONAL SUMMARY

Dedicated full stack engineer with a focus on front end development, adept at translating design concepts into seamless user experiences. Skilled in analytical problem-solving and adept at managing multiple tasks while fostering strong client relationships. Passionate about animal welfare and a vocal advocate for mental health awareness. Proven ability to prioritize tasks effectively and adapt to evolving project requirements. Quick to grasp new languages and technologies, consistently expanding skill sets to deliver innovative solutions.

## 🧠 SKILLS

**Languages** – HTML, CSS, Python, JavaScript, TypeScript

**Frameworks/Libraries** – Bootstrap, Tailwind, Flask, React, Node.js, DaisyUI

**Tools** – SQL, GitHub, Adobe Creative Suite, Final Cut Pro, Photography

## 📁 PROJECTS

**Lucky Paws Client Portal - Software Engineer**, Technologies: HTML, CSS (Tailwind & DaisyUI), Typescript, React, Flask, PostgreSQL, Node.js, JSON ✍

- Developed a client portal for a dog boarding business using React with Typescript, Tailwind CSS, and DaisyUI components.
- Implemented a PostgreSQL API using Python, Flask, and SQLAlchemy ✍ to handle CRUD operations for client data, dog information, and image uploads while ensuring data security and privacy.
- Integrated Cloudinary for image hosting, leveraging AI capabilities for image enhancement and smart cropping to create a visually appealing gallery of pictures showcasing each dog's stay.
- Designed user-friendly interfaces for clients to input and update personal information, including veterinarian details and emergency contacts, as well as pertinent information about their dogs such as feeding schedules, medical requirements, and behavioral information.
- Engineered a robust backend system to facilitate seamless communication between clients and the business owners, enabling the latter to send updates about the dog's stay directly through the portal.

## 🎓 EDUCATION

**Certificate - Software Engineering**, Coding Temple ✍

**Certificate - Art Direction**, Miami Ad School ✍

**B.A. - Digital Media Production**, The Art Institutes

## PROFESSIONAL EXPERIENCE

---

06/2024 – present

### **Software Developer, Co.Lab**

- Collaborate with a team of product managers, designers, and developers to develop a real-world product.
- Engage in hands-on, project-based learning to enhance technical and teamwork abilities.
- Contribute to all phases of the software development lifecycle, from concept to deployment.
- Network with industry professionals and gained valuable insights into product development.

02/2024 – 04/2024

### **Software Engineer Trainee, Coding Temple**

Technologies: HTML, CSS, Bootstrap, Python, Javascript, Typescript, React, Flask, PostgreSQL, Node.js, JSON

- Developed responsive web applications using HTML, CSS, and JavaScript to enhance user experience and interface functionality.
- Leveraged Python and Flask to create RESTful APIs for seamless communication between front-end and back-end systems.
- Employed React and TypeScript to develop dynamic user interfaces, enhancing interactivity and user engagement.
- Applied object-oriented principles in Python and JavaScript to design scalable and maintainable code structures, enhancing code readability and modularity.
- Demonstrated adaptability by quickly learning new technologies and frameworks, facilitating the adoption of emerging best practices.

02/2023 – present  
Lyles, Tennessee

### **Co-Owner, Lucky Paws Tennessee**

- Demonstrated strong organizational skills by managing daily operations and overseeing the "board & train" program, coordinating with the training team.
- Implemented marketing strategies to attract new clients, demonstrating creativity and an understanding of customer needs.
- Ensured the comfort and well-being of all canine guests, showing attention to detail and a commitment to quality.

10/2012 – 02/2023  
San Francisco,  
California

### **Owner, Ranger's Squadron**

- Honed organizational skills through managing scheduling, bookings, and client communications in a fast-paced dog walking and boarding business.
- Developed strong customer service and interpersonal skills through client interactions, resolving issues, and maintaining positive relationships.
- Demonstrated problem-solving and critical thinking by resolving logistical challenges and addressing client concerns promptly and effectively.

09/2005 – 01/2009  
Denver, Colorado

### **Video Editor, bieMEDIA**

- Spearheaded integration of online video content for employment and retail advertisement in collaboration with newspaper groups and directory services.
- Facilitated seamless cooperation among cross-functional teams including account managers, scriptwriters, and voice over talent to ensure the delivery of customized video content meeting customer requirements.
- Employed technical expertise to optimize video content delivery mechanisms, enhancing user experience and engagement on digital platforms.
